Aliens I Have Encountered - The Rendlesham Incident

Aliens have been encountered throughout history and are often referred to as gods or angels. One race, the Anunnaki, also known as the Illuminati have been visiting Earth for at least 450,000 years.

Around 7,000 BC, they settled in Sumeria with ancient drawings showing them as visitors from the stars arriving by space ship. The Anunnaki returned later to Egypt in 3,600 BC.

Hieroglyphs in the Great Egyptian pyramid in Giza show them as beings of great stature coming from the stars along with helicopters and other modern craft being depicted in ancient Egypt. It is hard to believe the Pyramids were manmade and must surely have been built with alien assistance.

Then, 3,600 years later the Magi (Three Wise Men) were said to be following a star to Bethlehem. Were they Anunnaki? In old paintings, space ships and flying saucers were often shown, particularly in a painting of the Virgin Mary which shows the star that appeared over Bethlehem as a space ship.

Engravings in the tomb of Pakal The Great, a Mayan Ruler, show him as an astronaut. The Mayan's were great mathematicians who established a 'long' calendar of periods of 1,872,000 days (5,125.36 years) known as the Grand World Cycle. However, who taught the Mayan's such intricate mathematics and the concept of zero? Why a world cycle of 5,125 years? Surely this would only have been of interest to aliens travelling through space.

Geoff warned that Friday, 21.12.2012 was not the end of the world, the Mayans were simply counting down to the resolution of the fiscal cliff. Actually this date only marks the end of one Mayan complete World Cycle, the calendar is then reset.

The new world cycle then begins ending in 7137 AD. The Anunnaki Planet Nibiru's Extreme orbit brings it close to earth every 3,600 years. Nibiru will next be at its closest to Earth in 2092.

The first famous alien encounters were in Roswell New Mexico, on 4 July 1947 when the United States Army Air Force captured an alien spacecraft together with aliens who

died in the crash. The theory is that the aliens were following the atomic bomb tests being carried out nearby.

The second most famous incident, and one which I personally observed, was the Rendlesham Forest Incident known as 'Britain's Roswell' and took place next to USAF Bentwaters Woodbridge Suffolk in December 1980. USAF Bentwaters was home to the USAF 81st Tactical Fighter Wing from 1944 to 1993.

Christmas Dinner Flashback...

The True Taste of Real Coffee

I.C.GEMS®

From Page 3

On the night of the first sightings, I was situated directly opposite the forest and at 03.00, I saw a glow in the trees and later a spacecraft ascended slowly up through the trees. As I recall, it had red, blue and green lights around the base and a glowing light at the top.

On clearing the trees, it suddenly ascended at an extremely fast speed and was gone in a flash. Nothing I know of on earth could have moved at that speed. At the same time there was a lot of activity from the USAF security personnel in the forest area. The main witnesses were Lt Col Charles Halt and Staff Sgt Jim Penniston as well as some civilians.

Halt made an official report dated 13 January 1981, headed 'Unexplained Lights' basically stating that at 03.00 on 27 December 1980, two USAF security police saw a strange glowing object in the forest. The object was metallic in appearance and triangular

in shape, three meters across and two meters high. On the 28th, three depressions were found in the landing area, and moderate radiation on the trees.

In the night a red sun like pulsing light was seen through the trees. The object then broke into five white objects then disappeared. Immediately three star like objects appeared, two in the north and one in the south. The objects displayed red, green and blue lights and were visible for two to three hours as they beamed down streams of light from time to time.

Numerous individuals were witnesses. The newspaper headlines were 'UFO Lands In Suffolk & That's Official'. Penniston was one of the security police who not only saw the aircraft but also touched it. He made sketches of the craft and the hieroglyphs on the side which have been studied.

Whilst the base commander was in no doubt about what he and others including myself saw, the MOD chose to cover up the incident. They felt that 'The Public Should Never Know.'

They tried to say that the lights in the forest were from Orford Ness Lighthouse. However, not only does it have a light shield to prevent the light beam landward, it is not in the same direction from the base as the lights seen in the forest.

On 16 November 1974, SETI transmitted an encoded message towards the globular cluster M13, roughly 25,000 light years away. When the USAF Security personnel touched the craft a message in binary code appeared and was noted down and later translated and found to contain the alien message "EXPLORATION OF HUMANITY CONTINUOUS FOR PLANETARY ADVANCE".

USAF Bentwaters closed in 1993. It is now home to a Cold War Museum and all the nuclear weapons destroyed in aid of "Continuous Planetary Advance".

Geoff closed by announcing that aliens exist and are amongst us before taking a few questions concerning both his experiences and beliefs in UFOs.
