### Greig Craft

#### Asia Injury Prevention Foundation

**B**ased on our club's recent support for the Asia Injury Prevention Foundation and the donation of a number of helmets, today we had the pleasure of listening to Greig Craft as he detailed what this amazing group has and continues to achieve in terms of motorcycle helmet safety.

Road traffic injuries (RTIs) are at epidemic levels worldwide. Approximately 1.3 mil-

lion people are killed on the world's roads every year and over 90% of these fatalities occur in the world's poorest countries with the majority in Africa, the Middle East and Asia.

The mobility brought by motorbikes in the developing world puts generations of riders at great risk, especially considering that helmet access and usage legislation are often low priorities for developing country governments.

The Global Helmet Vaccine Initiative (GHVI) model for helmet distribution, curriculum development, legislative action and public awareness education, already piloted in Vietnam, is now being replicated and shared in other developing countries, including the program we helped with here in Thailand.

Under the motto, 'a helmet on every head in the Decade of Action for Road Safety',

Greig Craft and his organization will bring helmets, the 'vaccine' against potentially fatal head trauma caused by road crashes to countries and people in need.

GHVI follow a five pillar approach:

- Helmet Provision:** construct national helmet assembly plants or import high-quality, affordable helmets
- Targeted Programs:** curriculum development, education programs for children and other at-risk groups
- Public Awareness Education:** national campaigns targeting at-risk road users
- Technical Assistance:** legislative advocacy, law enforcement training, implementation of helmet standards and testing labs
- Research, Monitoring, and Evaluation:** data collection, reporting and evaluation.

#### AIP Foundation's Mission

Asia Injury Prevention Foundation's mission is to provide life-saving traffic safety knowledge and skills to the developing world with the goal of preventing road traffic crash fatalities and injuries.

#### AIP Foundation's Vision

A world in which there are safer roads, smarter road users, and countries whose road traffic environments serve their developing economies and people.

A world in which private corporations, governments and the public sector collaborate to effect sustainable change in the field of road safety.

A world in which individuals are empowered and educated to make intelligent decisions about their safety and security when in a vehicle - as either a driver or a passenger.

## Committees are the lifeblood of Rotary! Join one today.

Much of our Club's work is done at the committee level.  
We have five (5) major committees that need volunteers for 2013-2014:

### Administration

(all fellowship events)

### Communications

(website, publications, marketing)

### Fundraising

(Coins on Silom, Golf, Duck Race)

### Service Projects

(Evaluates and recommends the projects we support)

### Rotary Foundation

(Matching Grants, Polio Plus, Youth Projects)
